- 2. All personnel having service records checked out of the Ship's Office are requested to return them today. The administrative staff has a myriad of personnel administrative entries that cannot be entered until these records are returned.
- 3. Because of our continuing problem with roaches, it is important that all members of the crew are aware of the measures we can take to keep these pests away from our food supply. Please keep all containers (i.e. butter, peanut butter, jelly, honey, etc.) covered or stowed properly and ensure that bread bags are tightly sealed. Clean up after yourselves or your protein intake may be higher than you think!
- 4. A BIBLE study (Phillipians, Chapter I) led by MM2(SS) PHILLIPS will be conducted in the Ship's Library at 1300 today. Interested personnel are cordially invited to attend.
- 5. Chances for the Olympus OM 10 35 MM camera are now available from MM2(SS) WALIGORA. The TI 57 Programmable Calculator was won by RMC(SS) STARLAND during Half-Way Night. Anyone having ideas for upcoming off-crew activities contact your divisional representative.
